

Annual review

Overview

The year brought steady work across every team, and this review sums it up in a few short sections.

A second paragraph starts with an indent instead of a gap, as books set them, and carries on at the margin.

Key points

- Sales grew in every region.
- Costs stayed close to plan, with two exceptions noted below.
 - Travel ran over.
 - Training ran under.
- Hiring finished early.

The steps taken were these:

1. Reviewed every budget line.
2. Agreed the targets.
3. Set the next dates.

Results

Output rose in each quarter, as the figure shows.

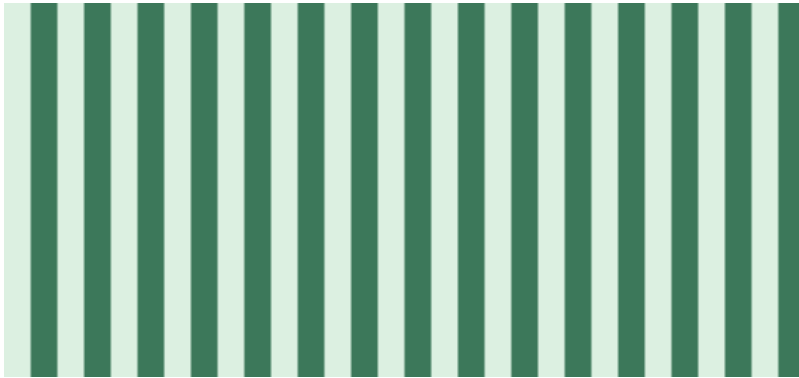

Figure 1. Output by quarter.

The last quarter closed with more orders than any before it, and the team carried them into the new year without a pause in the

work, which the next review will follow.

Next steps

The plan resumes at step three:

3. Hire two more people.
4. Open the second office.
